IQ™VIEW

SINGLE CONTROLLER DISPLAY

for IQ™5

TRANSITION TO SOFTWARE CENTRIC SOLUTION

Trend's next generation **IQ™VIEW Single Controller Display** for IQ™5 has been developed to give you the same great user experience and ease of use, whilst providing a software centric solution that meets the needs of every application.

Key Benefits:

☺ BETTER EXPERIENCE

New higher resolution, responsive display coupled with the enhanced IQ5's web server

⬆ FLEXIBILITY

Option to buy just the licence and deploy user's own HTML5 display

🔒 SECURITY

Designed including Cybersecurity according IEC62443 to offer an outstanding price/performance ratio for challenging and rugged applications

⏱ FUTURE-PROOF

Suitable for future system upgrades, it is the ideal choice for modern high performance building automation applications
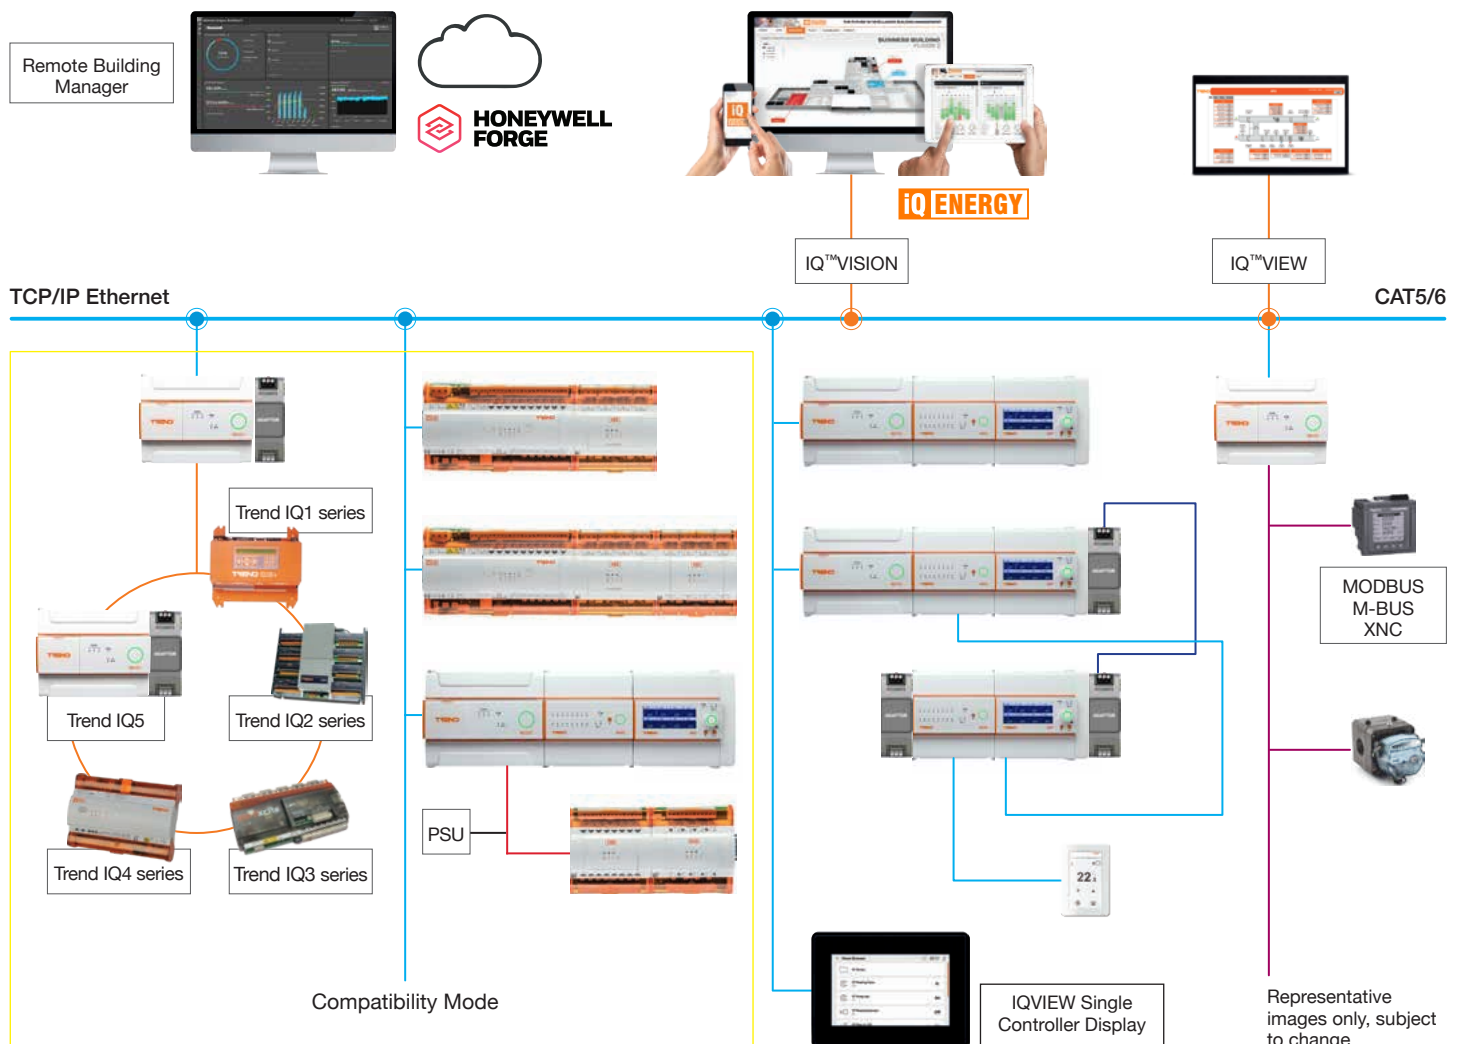

KEY FEATURES

- The IQ™VIEW application is hosted on the IQ™5 webserver

- Activate the IQVIEW application via licence unlock

- Future re-use capability, since technology will be extended in the IQ™5 series of controllers for network display purposes

- Available now in 2 sizes capacitive touch displays – 5-inch and 7-inch

- Enhanced display responsiveness

- High quality capacitive displays with 2 years warranty
